

How the World Works Insect/Arachnid Power Point

Due Monday: April 6th

Assignment: Research insects and arachnids. Choose an insect or arachnid that interests you and create a power point with the following:

1. Title Page: Your name / insect or arachnid name / photo
2. Draw a diagram of your insect or arachnid and label 5 body parts. Include functions with the parts. See the example power point.
3. Habitat- Describe the habitat your insect or arachnid can be found.
4. Life Cycle- Describe the life cycle of your arachnid or insect. Draw and label a diagram of the life cycle.
5. Supporters- List 3 supporters of your insect or arachnid.
6. Disruptors- List 3 disruptors of your insect or arachnid.
7. Bonus - Fun Facts- Write some fun facts you learned during your research.

*Each number should be a slide. You are turning in a Power Point with at least 6 slides, more is a bonus!

Add your creativity!

Resources: (Your child will need 2 sources to find all the information)

- Books you have at home
- Pebble Go! – username: riveroaks / password: school
- National Geographic for Kids
- Any other source from ROE useful links – research sites

Your child will jot their information/notes into their writer's notebook as they do their research.

Mrs. Lemoine has created a model PowerPoint for you to view.

If you do not have access to PowerPoint, please let me know.
